BUCK STEW AT GRASS VALLEY IS BIG AFFAIR

Saturday night at the Veterans Memorial building in Grass Valley one of the most outstanding events of the year took place in the form of a dinner, entertainment and dance given by the Pacific Service Employees Association of the Pacific Gas & Electric Company, Drum division. A happy crowd of over 600 people, both friends and members of the organization, were handled with dispatch and atteniton by the entertainment committee.

This gathering was the twelfth annual buck stew given by the P. S. E. A. Dan Stewart, P. G. & E. manager, in charge of Nevada Co., was the instigator of these stews twelve years ago. Since that time he has always played a major part in making them a success, although of late he has stepped aside to let others take the active part in promoting the stews. Dan Stewart is always there to help out though, you may be sure.

Auburn Men Take Lead

This year the Auburn delegation took the guiding reins and did a mighty good job of it too. Jess Colt, of Auburn, chairman of the P. S. E. A., had charge of the arrangements and dinner committee, with Dan Stewart as assistant. David H. Jones was chairman of the buck stew committee and also had Dan Stewart as assistant. Jones is from the Auburn office.

To start the evening off right, shortly after seven o'clock everyone was called in to dinner. The tables were set for 575 people, and there were no empty places three minutes after the dish-pan dinner bell rang. Tables completely covered the large stage floor and took up nearly half of the huge main floor. It is estimated that the 30 volunteer waiters walked a total of 113 miles during the course of the meal.

And the buck stew itself—right out of the pot and plenty of it. With lots of trimmings too. "Nuff" said, very little talking was done during the ensuing 40 minutes.

H. M. Cooper, who acted as toastmaster presented William Lindblat, of San Francisco, vice president of the P. S. E. A. He gave a short talk as did Charlie Lee, welfare delegate at large from Auburn.

Fine Program Provided

About 8:30 everyone was asked to repair to the balcony, whereupon the stage and main floor were soon cleared of all tables and chairs and rows of chairs were moved to the front of the main floor, so spectators could move forward.

An announcer took the stage and introduced Angela Nicholas who gave some clever song and dance numbers with Eleanor Carr of radio fame at the piano. Jimmy Ash gave a few song selections and Dale Whitehead, who is known as the second Eddie Peabody, knocked off some snappy numbers on the banjo.

Henry Coleman, cowboy from Winters, gave the audience a few hilarious minutes with his one-man hay-wire orchestra. Henry played the guitar, blew the harmonica and sang tenor all at the same time.

The Harmonettes, a girl quartet, sang a few selections and were followed by a short play given by Miss Verna Hanna and Melvin Cruse, that centered about the young lady's wooden leg.

Having recently returned from Brussels, Vitold Farrells gave a selection of violin pieices. Farrels, who led the Brussels Symphony orchestra, is far above the ordinary violininst and the crowd was very appreciative in its applause.

Alfred Briggs, of Lincoln rendered a few baritone songs and Eleanor Carr, who had been doing most of the accompanying, gave a nice piano number.

One of the biggest hits of the program was "Caruso, My Cousin," by Andrew Jovovitch in humorous style Jovovitch also brought down a big hand with his " When Irish Eyes Are Smilling."

Little Billie Kee, Chinese high school girl from Auburn, sang some popular pieces and Lester McEathon of Dixon, gave his first performance in a high tenor voice. Hal Davis and his "Rythm Four" gave some tap dances and then Davis enacted

(Continued on page four)

M'CULLOUGH'S EMPIRE RANCH IS LOOTED

Joseph McCullough was just one day late in visiting his Emire Ranch property above Downieville last Tuesday. For on Monday, a band of hoodlums vistied the ranch and stole a 50-inch circular saw and a lot of good lumber. Besides this they tore down several outbuildings in order to get some of the lumber.

The Empire Ranch, a landmark in the Sierras for 75 years, can be reached only by walking or riding horseback along a trail from Downieville for 5 miles. That is the only way in or out. Why vandals went so far to loot a place remains a mystery. It is a wonder that they were not caught on the way out of the woods.

Stealing a 50-inch diameter saw is most extraordinary, especailly when it has to be toted five miles. It is expected that the saw will prove to be the robbers downfall.

In the old days if a man was caught stealing from a ranch in the mountains, he would be strung up by the neck near a trail and left as a mute warning to others that might be tempted to do thievery. It is too bad this practice cannot be followed today. It would cure 90 per cent of the law breaking.

McCullough lives at North San Juan.

NEVADA COMPANY TAKES OVER STOCKTON HILL

The Paymaster Mining Company, formerly the Broken Hills Mining Company of the state of Nevada, has recently taken over the Stockton Hills mine just south of Grass Valley.

The property was owned by Bill Hayes, a noted pioneer of the mining fraternity in Nevada county, and was obtained from him by a lease and bond. Hayes lives three miles south of Grass Valley.

Men have been working the property for the last three or four months and have cleaned out the main shaft for a depth of about 150 feet.

Previous to this time the mine has not been worked for many years.

Water was pumped out of the main drift, and when entered it was found that the timbers, that had been submerged for 70 years, were in fairly good condition. The sight of the timbers in position after such a period of time was remarkable to behold.

It is now the purpose of the Paymaster company to continue the work started.

U. S. FOREST SERVICE RANGER SCHOOL OPENS

The seventh session of the California ranger school conducted by the U. S. Forest Service at the Feather river station training camp on the Plumas national forest, opened October 3 with 26 student rangers from 12 national forests, two national parks, and the county of Los Angeles in attendance. Six weeks intensive training in all branches of ranger work will be given by instructors from the Regional office of the Forest Service in San Francisco and the California Forest Experiment Station, Berkeley.

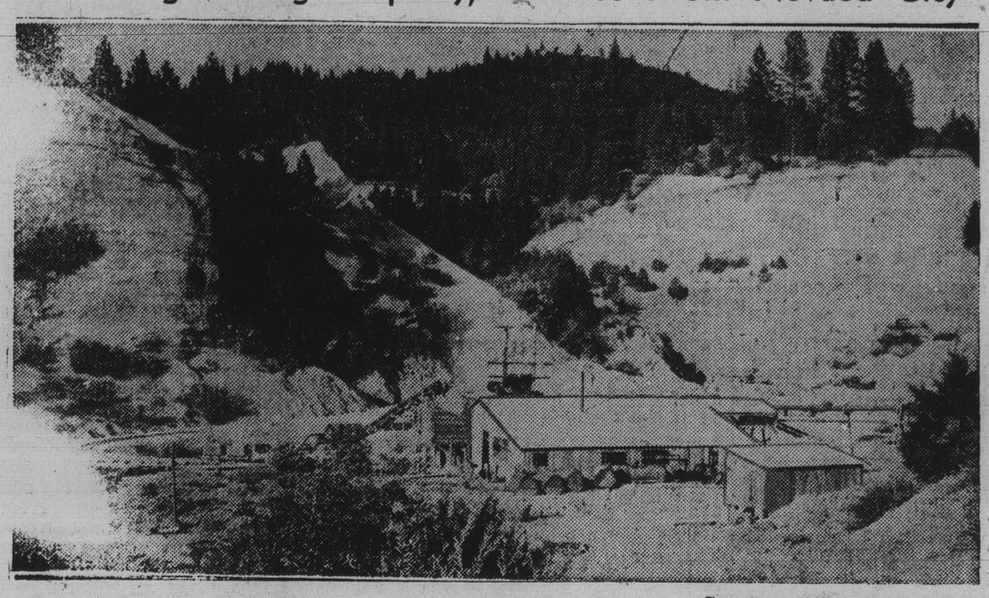
The students are members of the permanent ranger forces of the organizations represented. The State Division of Forestry was unable to spare state rangers, who are to supervise the unemploymnet labor camps which open this month.

HARRIS TO RELINQUISH H. S. BUS DRIVING JOB

Starting today, Richard S. Dare will be seen driving the high school bus from French Corral and North San Juan instead of Frank Harris. Harris has been driving the bus so far this year, but his mine in Birchville demands his attention from now on through the winter. With Will Moulton and J. Snook as partners, every winter Harris works on the Birchville hydraulic mine. The mine is shut down during the summer time as water gets low in the Pine Grove reservoir. With a lot of 15 and 22 inch pipe to move before the rains set in, work will have to start soon. The three men have been working this mine for the past four years and have certainly changed the landscape around Birchville.

Sonora—Work resumed at Columbia marble quarry.

Red Dog Mining Property, 10 miles From Nevada City



—Courtesy Sacramento Bee

New Method May Revolutionize Gravel and Hydraulic Mining

Wednesday of this week ye editor had the pleasure of inspecting a new machine, which when put into operation will start a new era in the handling of gravel or hydraulic mining.

In conversation with Mr. H. M. Scheurn, who is master mechanic for Charles Thompson, the owner and patentee of the new machine, Mr. Scheurn said: "We have 1200 acres of gravel property located about 10 miles east of Nevada City in what is known as the "Red Dog" district.

"In less than two weeks we will start active operations with this new machine which Mr. Thompson, Los Angeles contractor, has built and patented and has used in preliminary tests on the property. We will use about twenty-five men on each shift and have plenty of water and an unlimited amount of virgin ground to work out."

Description of Machine

This machine has all the appearance of an immense combination ditch digger and dredger, although it works into a tunnel and the plan is as follows: A semi-circle is cut into the side of a hill by hand about 12 feet wide and the big machine goes in on its own power and operating on an edless chain bucket cuts into the bedrock on an average of 12 inches, taking out what is known as "cement gravel" which will run about $2.00 per yard in gold.

These large pieces of gravel are first dumped into small dump cars and then carried on a belt conveyor into a large revolving drum which breaks up the large chunks and thence into a sluice box about 30 feet long. From there the material goes into another large drum which works out the small stuff and then into a second sluice box of similar length. The tailings are then carried back into the tunnel which has already been worked.

Will Handle 600 Yards per Shift

This machine will handle about 600 yards of gravel in an eight-hour shift, according to the ground in which they are working.

The tunnel will be heavily timbered as the work progresses and it will take a nice crew of men to keep this work going.

The direction of the work at the present time is toward Brown's Hill and this country has been partly closed by hydraulic miners in the early days and thousands of dollars were taken out before the law put a stop to this kind of mining.

Southern California Men

The men in charge of the proposition come from southern California and Mr. Thompson was a large contractor in the southern part of the state in doing tunnel work and thus he coceived the preliminary idea of the machine which is now being perfected.

About $75,000 has been spent so far in the necessary preliminary operations and the master mechanic, Mr. Scheurn, is at the present time making some changes in the machine which have been found necessary.

This simply means that whereas formerly many tons of useless dirt was handled in order to get down to "pay dirt" the process now is simply to go right to bed rock and work right on the bedrock in much the same manner as a dredger works except that this machine works on dry land and no one at this stage can say what possibilities the new method will bring forth. We can only say that millions of dollars are still stored in "them thar hills" and with this machine it may be possible to get most of it out.

A Billion Dollars

An idea of the possibilities may be visioned when we read what R. P. White says in the September issue of the California Mining Journal. He says: "In the northern placer gravels, locked by law and a 50-year fight between the farmer and miner, lies one billion dollars in virgin gold."

Fresno—Union Paving Co. of San Francisco, received $83,256 contract for grading and paving 2.7 miles on Golden State Highway between Fancher Creek and this place.

San Bruno—Work to start shortly on $800,000 San Francisco county jail near here.

Old Time Willow Valley Resident Has Electric Lights for First Time

"Time and Tide wait for no man" and we might add that time makes many changes, sometimes for the good and sometimes the other way around, but in this case it is all for the good, because last Thursday the residents of Willow Valley had the pleasure of reading their newspapers with the aid of electric lights for the first time in history.

Charles Genasci, who is one of the oldest residents of this section, is one of those thus benefitted. Mr. Genasci is living on the old homestead that was built 80 years ago, and with the exception of a few years spent in the state of Washington when he was a young fellow, he has lived his entire life in this section. His brother, William, lives nearby in a home that was built more recently, and they both feel that surely this is the day of progress.

The old Genasci homestead is located about 1½ miles from Nevada City ni about the center of Willow Valley and next Monday this section will begin receiving mail daily through the extension of the R. F. D. service from the Nevada City postoffice. Thus the farmers are getting all the modern improvements, mail service and electric juice that can be used for lighting, heating and power purposes.

The P. G. & E. ran a pole line from the main power line at the count hospital to furnish this section and a crew of men have been busy for several weeks completing this work. It was necessary for all consumers to sign contracts in order to accomplish this result and with the many new homes and cabins that are being built this was not a hard task to accomplish.

Among the many who are building in this section might be mentioned William Dafis of Sacramento, who is putting up several nice cabins that are rapidly nearing completion. Many people are looking toward this part of the county for summer home sites.

NEW ROD MILL FOR SIERRA CITY MINE

Two large six-wheel trucks with trailers passed through Nevada City last Friday afternoon with a load of machinery weighing approximately 20 tons. And it looked very much like it was mining machinery. In fact the driver of the truck admitted as much and upon close questioning the fact was revealed that it was a new rod mill for one of the mines in Sierra City. Just which one we were unable to find out.

MONKEY COMES TO OUR CITY WITH ASSAYER

When Mr. and Mrs. Don Carlos Billick came to town a few weeks ago they brought with them a member of the Cebus family (better known as a little brown ring-tailed monkey). This little girl was brought from the dark jungles of Venezuela, South America. Nearly every boy in town has already visited Miss Jergin, as the little newcomer is called. Although somewhat reticent in her action towards strangers, she has by now made many friends among the younger generation here. Jergin is a modern minded young lady. She loves to go automobile riding, just dotes on dancing, and she even takes a drink now and then. The one thing Jergin can't go is cigarettes, The tobacco gets caught in her teeth.

Three years ago Jergin was caught by a native Venezuelan after he had shot her mother to death. She was just an infant then, having been befriended by Billick, the native gave the baby monkey to the American.

Since that time Jergin has traveled many hundreds of miles on both continents and has stayed in some of the best hotels.

The Billicks raised Jergin on powdered milk and they still give it to her three times a day. Although milk is her main diet, she is quite fond of nuts and fruits. She is now full grown and about the size of a full grown cat.

Monkeys of the Cebus family are used a great deal in medical research work. The Rockefeller Foundation has obtained a great number of the little fellows for that purpose.

An adult Cebus monkey has very seldom been caught alive. About the only way they can be caught is to kill the mother of an infant monkey and then to tear the baby from its mother's back. It clings to the back of its mother by entwining fingers and toes in the maternal fur.

N. C. H. S. LOSES HARD GAME AT PLACERVILLE

It was just one of those things. Nevada City High School played in tough luck when it lost a 6 to 0 game to Placerville High school last Saturday at Placerville.

Starting the game, Placerville kicked off to Nevada City and the boys brought the ball back on line plays to the 35-yard line, where they punted to the Placerville 35-yard line. Placerville failed to gain an inch on three tries at the line.

On the 4th down Placerville kicked to Chapman on the Nevada City 35-yard line where he fumbled the ball and lost it. Placerville's ball, 1st down and 10 to go.

On the first play, Nevada City was penalized 15 yards for holding,

(Continued on page four)

RICH VEIN FOUND BY NEW COMPANY AT FOREST HILL

The newly organized Sierra Development Company has recently opened up a vein of rock on their Forest Hill Mine at least 40 feet wide that through mill assays and tests averages $9.75 per ton.

The mine, comprising 91-2 full claims is owned and operated by the owners of the Sierra Development Company, namely, H. Dorris, Russel Haddy and John Quinn. Haddy is a very well known Nevada Ciity mining man.

Until about two months ago this mine was owned by Dorris alone. At that time he sold portions of his holdings to Haddy and Quinn, whereupon the three men reorganized the Sierra Development Company, that was formerly owned by Haddy and Dorris, and it is now owned by the three partners.

Their mine is located within 1000 feet of the Kate Hardy Mine, which was a very good producer in the past. It is understood that the Kate Hardy is now being promoted by men from below.

The Brush Creek Mine is but two miles away from this new strike and is now producing good ore with about 40 men doing the work.

The new mine has a 400 foot tunnel going straight back into the hill, where a winze has been run down about 40 feet on the ledge, which is still rich. At the 300 foot mark in the tunnel, a 40 foot cross cut was made with no country rock being found at either end. Tests were made all along the cross cut and down the winze which proves the value of the strike. A 40 foot ledge of nearly $10 rock is some gold strike!

The three men have 1500 tons of this ore already mined and ready to go to the mill which is now handling 35 tons a day. The mill is of the 100 ton "ball" type and is located nearly one-half mile from the tunnel. In about three weeks time it is expected that the mill will be moved down to the mouth of the tunnel. Later miners will be put on and production will then be in full swing.

Last week, Haddy made the trip to Sacramento and brought back a concentrating table. The concentrates mined to date have run three per cent.

The mill was started up yesterday after several days of repairing and reconditioning work, during which time it was put in first class order. At a later day, modern mining equipment will be purchased and full production will be under way.

NEVADA MINING COMPANY INVADES THIS DISTRICT

The Silver Pick Mining Company of Tonopah, Nevada, has recently acquired four adjoining mines about three and a half miles east of Nevada City beyond the Murchie mine. The mines are the Constitution, the St. Louis, the Federal Loan and the Bell Fountain.

For twenty-five years the Silver Pick Mining Company has been operating in the state of Nevada, and for many years was under the control of the late Herman Zadig. Recently the entire personnel of officers in the company has been changed.

Emil J. N. Ott of this city has owned the properties until this time and it is understood that he sold directly to the principals. For the last year Mr. Ott has been selling options on the mines to Dr. F. W. Loomis, Ernsberger and associates. The mines have not been worked during these periods.

Contrary to rumors that persisted, the present deal was not made thru J. M. Hoff.

Wednesday a crew of men was hired and put to work on the old Constitution. So far the work on the mine has been very shallow.

Mr. and Mrs. O. W. Crane, of Pasadena, spent several days last week in this district. Mr. Crane, mining man, was investigating properties at Indian Hill. Thursday night they left for Tuloumne county for mining investigation purposes. He expects to return to Los Angeles from there and later will visit this region again.

PRAISE FOR COUNTRY NEWSPAPERS

The following is an excerpt from a speech of Rev. Bob Shuler, candidate for U. S. Senate:

"And now before I get down to a little rather interesting discussion of a campaign issue in which I think you will all be interested, I want to thank the newspapers of the small towns and rural sections of the state for their wonderful support and the square deal they are giving me. They are most magnanimous to me, especially when you come to consider that I have no money and cannot reward them with big advertisements and the like.

"I do want to call upon the people of the various communities to support their newspapers. I am not talking about the big metropolitan newspaper that is a mere propaganda sheet for the special interests. No, you can use your judgment there. But the newspaper that still has ideals and is still battling for America, for right and justice should have your support.

"Do not forget that this nation would never have stood had it not been for the independent newspaper. The radio can no more take the place of the newspaper of that variety than the truck can take the place of the Pullman train. If this nation shall survive, the free and untrammelled press must be maintained. Not the press as represented by William Randolph Hearst. Not the newspaper that poisons the very fountains of our social order, corrupts the morals of the people and preaches lawlessness and disregard for the Constitution. No, that kind of a newspaper is a menace. But the newspaper such as you have in your small towns and rural sections is an essential factor to the very life of your civilization. Support your newspaper. Stand by its advertisers. Subscribe for it and be loyal to it. That's good advice. Remember that the newspaper has been the very backbone of our democratic form of government and a free press will to the end be a mighty guardian of our liberties.

"I say this, not only because of the magnificent treatment accorded me by the rural press of California, but I say it because it is the truth and should be said over and over again."

PROPOSITION NO. 11 DESIGNED TO RELIEVE UNEMPLOYMENT; WILL ADD TO STATE INCOME

By E. G. CONRAD

Mayor of the City of Huntington Beach

Proposition No. 11, known as "Tideland grant to city of Huntington Beach," should be carried because it will insure to the people of California the most possible benefits from a great natural resource—a vast deposit of petroleum underlying the Pacific ocean within the city limits of Huntington Beach. This deposit is now being drained by the Standard Oil company, which has already taken approximately $7,000,000 worth of oil from 16 wells along the beach on a narrow strip of privately-owned land.

To enable the public to receive their just benefits from this public-owned oil supply, now being drained to the profit of the Standard Oil company and private land owners, Proposition No. 11 grants the tidelands in question to the city of Huntington Beach on a profit-sharing basis, one-half of the oil profits going to the state of California and one-half to the city of Huntington Beach. A bonus of $100,000 and a royalty of one-sixth of all oil produced in the future, will be divided in this manner and go to help the overburdened taxpayers.

The new development program will call for the expenditure of approximately two or three million dollars, with approximately $1,000,000 being paid out in wages to workmen who are now unemployed. About five hundred men will be given jobs, and this new employment will be an important step forward toward renewed business activity and employment throughout the state.

Your "Yes" vote on Proposition No. 11 will be a boost for more jobs for California workmen, increased prosperity and a continuous revenue to the public from a valuable natural resource, now being drained from under public lands to the profit of Standard Oil.

ALLEGHANY

ALLEGHANY, Oct. 8.—Mr. and Mrs. Jack Howard and young son returned home Sunday from Nevada City.

Mrs. Tom Fleming left for her home in Sacramento, after an extended visit with her husband.

Mrs. Fred Develey motored to Sacramento over the weekend to visit with her son.

Lee Crafts, well known resident of Alleghany for many years, died this week. Mr. Crafts will be missed in our community as he was always ready with a kind act. Sincere sympathy is extended to his family.

Bob Smith had two arteries cut in his wrist recently, but with no serious results.

Mr. Van Horn has had an infection in his finger.

Mr. and Mrs. H. R. McDougall have gone to San Francisco on their vacation.

Joe Finane, who was operated upon at the Alhambra hospital in Sacramento some time ago, has returned to his home in Forest. He is feeling fine and we are all glad to have him back with us again.

Mrs. Carl Johnston, Mr. and Mrs. John Gardiner and Mrs. H. R. McDougall and Ivan Woods attended the funeral and cremation of the late Lee Crafts in Sacramento.

BANK OF AMERICA REPORTS BIG INCREASE IN DEPOSITS

An increase in the combined deposits of the Bank of America in excess of $6,500,000 since June and of $58,100,000 since March, are noted in the call statement of that institution as of September 30. The September 30 report shows total deposits of $716,418,000 as against $709,839,000 in June.

There has been an increase of $982,000 in loans and discounts, this item standing on the books as of September 30 at $511,689,000. Total resources have increased $1,662,000 and are shown as $907,036,000.

"This splendid gain in deposits in the short space of seven months is accepted by his associates as a testimonial by the people of California to the unselfish qualities of leadership of A. P. Giannini and his Bank of America organization," said President Will F. Morrish. "The press must also be accorded its just share of credit for the splendid way in which it has cooperated in our "Back to Good Times" campaign that has reflected in benefit to all the state and its splendid financial institutions."

Petaluma—Cornerstone of new postoffice laid.

Jots in Jest

A popular slogan 30 odd years ago was "Remember the Maine." This year it's "Remember the Maine Election."

* * *

LEGAL NOTICES

SUMMONS

In the Superior Court of the State Of California, in and for the County of Nevada.

ALICE HARE, Plaintiff, vs., C. B. CONLIN, DANA WICKS, CHAS. L. SALMON, MARY E. SALMON, W. D. HILL, S. A. PARNALL, LAURETTE E. PARNALL, JOHN DOE, RICHARD ROE, MARY POE, and BLACK AND WHITE COMPANY, a corporation, and any and all other persons, associations or corporations claiming any right, title or interest in and to the lands described herein. Defendants.

Action Brought in the Superior Court of the State of California, in and for the County of Nevada, and the Complaint Filed in the Said County of Nevada, in the Office of the Clerk of Said Superior Court.

CHARLES L. GILMORE,
Attorney for Plaintiff.

The People of the State of California Send Greetings to:—
C. B. Conlin, Dana Wicks, Chas. L. Salmon, Mary E Salmon, W. D. Hill, S. A. Parnall, Laurette E. Parnall, John Doe, Richard Roe, Mary Poe, and Black and Whie Company, a corporation, and any and all other persons, associations or corporations claiming any right, title or interest in and to the lands described herein, Defendants.

YOU ARE HEREBY NOTIFIED, that an action was brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of Nevada, by filing a complaint in the office of the Clerk of said Court on the 30th day of April, 1932, in which action Alice Hare is plaintiff, and you are defendants.

Said action is brought by the plaintiff against you as defendants to quiet her title to the properties described in the complaint and set forth herein, and,

YOU ARE HEREBY DIRECTED TO APPEAR and answer said complaint before this Court to show what right, title, estate, lien or interest you or any of you may have or claim in or to the property described in said complaint, and herein set forth, adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, within ten days from the service of this summons, exclusive of the day of service, if served on you in said County of Nevada, and within thirty days, exclusive of the day of service, if served elsewhere; and you are further notified that unless you so appear and answer within the time above specified, that plaintiff will take judgement, forever quieting her title to the lands and premises herein described, or will apply to the Court for any other relief demanded in the complaint.

That said lands and premises are situate in the County of Nevada, State of California, and described as

The Northeast quarter (NE¼) of the Northwest quarter (NW¼- and the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section thirty-six (36), Township eighteen (18) North, Range eight (8) East, Mount Diablo Meridian, and containing eighty (80) acres of land, according to the official United States survey thereof.

Given under my hand and the Seal of the Superior Court of the County of Nevada, State of California, this 30th day of April, 1932.
(SEAL)
R. N. McCORMACK, Clerk.

State of California
Department of Public Works
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received by the Department of Public Works, Division of Highways, at the office of the District Engineer, 502 State Office building, Sacramento, California, until 2:30 o'clock P. M. on Wednesday, October 19, 1932, at which time they will be publicly opened and read, for performing work as follows:

Sacramento, Placer, Yuba, El Dorado, Sutter, Butte, Yolo, Colusa, Glenn and Nevada counties, at various locations, about three hundred seven and seven-tenths (307.7) miles of traffic stripe to be applied to existing pavement.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at above address.

No bid will be received unless it is made on a proposal form furnished by the District Engineer. Each bid must be accompanied by cash or a certified or cashier's check made payable to the Director of Public Works, for an amount equal to at least ten (10) per cent of the amount bid, such guaranty to be forfeited should the bidder to whom the contract is awarded fail to enter into the contract.

The Department of Public Works reserves the right to reject any or all bids.

In accordance with the provisions of Chapter 397, Statutes of 1931, the Department of Public Works has ascertained the general prevailing rate of per diem wages applicable to the work to be done to be as follows:

Classification	Per diem wage
Common laborer	$4.00
Skilled laborer	5.00
Truck driver	5.00
Any classification omitted herein not less than	4.00

Overtime—One and one half (1½) times the above rates.

Sundays and holidays—Double the above rates.

The per diem wages listed above are based on the customary 8-hour working day and when less time is worked per day the amounts paid shall be the pro rata of the amounts listed above.

DEPARTMENT OF PUBLIC WORKS,
DIVISION OF HIGHWAYS
C. H. Purcell, State Highway Engineer.
By C. R. Whitmore, District Engineer, Dist. III.
Dated: October 3, 1932. O7-2t

NOTICE TO TAXPAYERS

Notice is hereby given by the undersigned that the taxes for the city of Nevada for the fiscal year 1931-32 are now due.

Said taxes will be delinquent on

Monday, October 10, 1932

at 6 o'clock p. m. and unless paid prior thereto 10 per cent will be added to the amount thereof.

Payment of said taxes may be made to me at the City Hall on Broad street and for the purpose of collecting the same I will be in my office in the City Hall from 8 a. m. until 12 noon; from 2 to 5 p. m. and from 7 until 8 p. m. each day until said taxes become delinquent.

Dated September 29, 1932.

H. H. HALLETT,
Chief of Police, Nevada City,
Ex Officio Tax Collector.

FORFEITURE NOTICE TO CO-OWNERS OF MINING CLAIM IN YOU BET MINING DISTRICT

TO J. A. SIMPSON and L. E. SIMPSON;

You are hereby notified that I have performed the annual labor required by law for the year 1931, upon the OCTO MINING CLAIMS situated in section 30, Township 16 North, of Range 10 East M. D. B. & M, in what is known as the You Bet Mining District, in the county of Nevada, state of California; and that unless in the time prescribed by law you pay your proportionate amount of said expenditure your interest in said mining claim will be forfeited to me under the provisions of Section 2324 of the Revised Statutes of the United States.

RUBE E. NOBEL...

Last Publication December 23, 1932.

ORE BUYERS' APPLICATION

In compliance with Section 1, Chapter 183, Statutes of 1929, the undersigned, whose principal place of business is at Nevada City, California, hereby gives notice that application has been made to the State Mineralogist for a license to carry on, within the State of California for the year ending December 31, 1932, the business of milling, sampling, concentrating, reducing, refining, purchasing and receiving for sale ores, concentrates and amalgams bearing gold or silver, gold dust, gold and silver bullion, nuggets and specimens.

Protest may be made by any person to the issuing of such license at the office of the State Mineralogist, Ferry Building, San Francisco.

DON CARLOS BILLICK.
O7-3t

NOTICE TO CONTRACTORS

Sealed bids will be received by the City Council of Nevada City for the construction of a reinforced concrete slab bridge with rubble-concrete walls, to be placed over Little Deer Creek on Nimrod street.

Construction to be in accordance with plans on file in the City Hall.

Bids will be opened Friday, October 14th, at eight o'clock P. M. at the City Hall on Broad street. The Council reserves the right to reject any and all bids.

R. J. BENNETTS, Mayor.
GEORGE H. CALANAN,
S30-3t City Clerk.

Insurance Men Watch Cape-Able Firemen

No, the two be-caped gentlemen are not sprinkling the lawn, nor is that mid-Victorian lady really in a swoon. These are simply bits of action that took place when the Philadelphia fire department tried out some ancient apparatus, and equally ancient firemen's garb, to thrill visiting insurance men. The firemen, above center, are using an old Colonial hand pump. At left, a fireman is shown "saving" a Colonial maid. And, at right, Chief Ross Davis of Philadelphia is sounding the alarm.

LUKENS MAY HAVE TO BUILD ANOTHER MILL

A deal was completed last Friday by which Pete Iverson and four associates leased the old Crandall mine in the Ophir district, about two miles out of Auburn.

The lease of the mine may mean that Earl Lukens, Auburn mining man and president of the Mine Owners Assn., Inc., may have to turn over to Iverson the rehabilitated Crandall mill which for several weeks past has been conducted by him as a custom mill, an institution which Auburn and Placer county needed very much. In case Iverson makes a go of the mine he will need the mill for his own operations.

However, Mr. Lukens looks upon the Iverson lease as progress in the mining development of Placer county and assisted the owners of the Crandall in making the deal, declaring that whenever it appeared that Iverson was to need the mill he would immediately take steps to build a new custom mill in a location more easy of access than is the Crandall mill.

Iverson and his four associates are to operate on a cooperative basis all sharing in the expense and profits of the deal. In case of a sale they have agreed to pay $35,000 for the property, the owners allowing them to pay for it out of the earnings. Cooperative working saves them the high cost of liability insurance, the workers carrying their own risk.

Iverson will be remembered as the man who had the rock drilling contract on the new state highway tunnel at Newcastle.

Santa Barbara — Work to start soon on construction of proposed $45,000 district storehouse and garage for Southern California Edison Company.

NEW YORK MINING CO. HAS WELL EQUIPPED MINE

GREENVILLE, Calif.—Development work in the New York Mining Company's property near here is reaching a most interesting stage.

At the present time, underground work is confined to a raise on a new vein that was uncovered a short time ago. It is believed by Superintendent Walter H. Parsons that this is the original New York vein and if this deduction proves to be correct, it will give the company a very large tonnage of ore that should average around $30 per ton.

The New York mine has the advantage of working its ore bodies through tunnels in the side of the mountain. The mine is situated in one of the richest areas in California and further development will place the mine in the ranks of California's leading producers.

Operations in the New York mine are carried on through a 1700 foot tunnel. The property is one of the most completely equipped in the state of California. A modern 50-ton mill is located on the property and a complete assay office insures down to the minute checkups on the value of ores being blocked out.

Officials of the New York company state that just as soon as finances are available to prosecute the vigorous development campaign that is mapped out, the company will have ore available to assure continuous mill operations for many years to come. It was pointed out that the company was conservatively capitalized, owed no debts, was intelligently directed and lacked only the $15,000 or $20,000 necessary to employ labor and buy supplies for the development campaign required.

CAMP CREEK IS OPERATING 50 TON FLOTATION PLANT

The Camp Creek Mining company situated 23 miles east of Placerville on the eastern belt of the Mother Lode, started production recently with a 50-ton capacity flotation mill. The ledge consists of gold-bearing quartz 3600 feet long and 1200 feet wide, exposed the full distance.

This ledge had been tackled several years ago, but by the latest scientific methods and modern equipment the Camp Creek company now gets an amalgamation of 96 per cent as against 25 per cent in the past.

The company consists of W. D. Peterson of Dixon, president; B. M. LaFontaine of Dixon, vice president manager and treasurer; Harvey Collins of Woodland, secretary; C. Collins of Woodland, R. Luttges of Dixon and W. Apperson of Oakland are on the board of directors, with Peterson and La Fontaine.

Development of this mine began last February, and the concentrates are being trucked to Selby's smelter in the bay region.

Youthful Strength
Dr. Magnus Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created
TITUS-PEARLS
to help the million of men and women who have lost or are losing their vital physical power. In his 25 years of practice and research, however, he realized that the weakening of man's glands was also responsible for other troubles: **High blood pressure, hardening of the arteries, physical exhaustion** after work or exercise, **dizziness, depression, neurasthenia, etc.**
All these troubles can be removed with **Titus-Pearls. Numerous** cases were treated by Dr. Hirschfeld in his Berlin Institute.
L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been incomplete for previous 5 years. Blood pressure too high. Given 2 Titus-Pearls 3 times a day. 2 tweeks later the medical report on this man was: General health better, more vigor; dizziness much less and returning of power. Treatment continued and 2 weeks later L. S. reported again, this time to say that all wearinesse and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained the physical power and virility that he had known in the prime of life.
Start regaining your youthfulness now! To-day! In 2 weeks' time you will be aware of the new, virile force within you. Send $5.00 (cash registered or money-order) for 2 weeks' treatment.

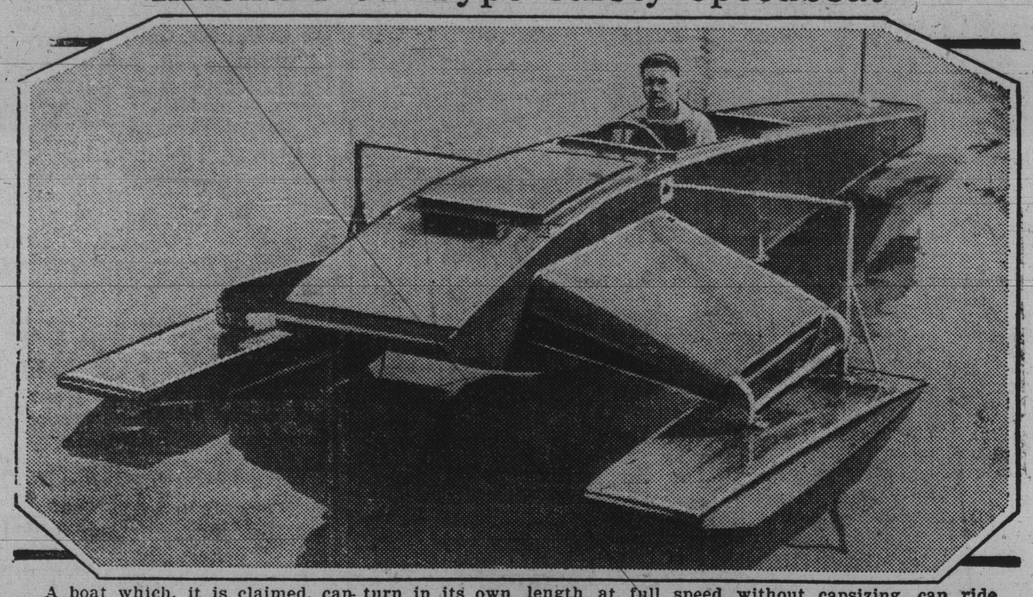
Invents New Type Safety Speedboat



A boat which, it is claimed, can turn in its own length at full speed without capsizing, can ride smoothly in rough water, and has a speed of one mile for each horsepower, has been invented by Thomas E. Lake, son of Simon Lake, famous submarine expert. The boat, with young Lake behind the wheel, is shown above. It is 20 feet in length, seats two people, and is propelled by an outboard motor. Three pontoons, synchronized, serve to direct and steady the craft. According to Lake, a boat of this type is faster than present type powerboats, power and weight being equal.

LOCAL HAPPENINGS

Mrs. Neaves, of the Shamrock Cafe, and daughter, moved this week to the Kissel property which has just recently been fixed up, where they are nicely located.

Mr. and Mrs. Thomas have just moved into the Kissel property and will at home to all of their friends at the new location.

Mrs. Neaves has just returned from a trip to Reno. She says that Nevada City is the land of "milk and honey" compared to the Nevada metropolis, and she does not mean perhaps.

Mr. and Mrs. K. Lawrence have moved to Nevada City. They are making their home at this time in the Frank Berry home, the old Central House at the Ski club course.

Ray Blanchard, of this city, took a truck load of steel rails and an air compressor to the Yellow Jacket Mine at Alleghany last Friday night, for William Lithenburg, the mine superintendent. He brought back the empty truck last Saturday.

H. E. Bolton's 5-10-15 cent store is now undergoing a thorough renovating operation. The principal is to be the shortening of the front windows to conform with the modern trend in up-to-date stores of today. A halloween display will be presented in the very near future.

Mr. and Mrs. Gerald Barker, of San Francisco, formerly of Grass Valley, visited his sister, Mrs. Fred Yokum, of Nevada City, Friday. Mr. and Mrs. Barker have been in Grass Valley for the last two weeks.

Mr. and Mrs. Vincent Foley together with their young daughter, Patricia Ann, were visitors in Berkeley Saturday and saw the Golden Bears of California achieve a brilliant moral victory over the overconfident and highly touted St. Mary's team from the Moraga Hills.

E. R. McMath and sister-in-law, Mrs. Wild, both of San Francisco, spent last week-end with Mr. and Mrs. Chas. Quentha. Mrs. McMath has been visiting with her daughter, Mrs. Trimmer and sister, Mrs. Guenther, for the last two weeks and returned home with them.

Mr. and Mrs. Williams and Mrs. Harold Young, of Oakland, spent the week-end visiting relatives in Nevada Cit and Grass Valley. Mr. Young surprised his mother, Mrs. Will Young, who has been confined to her bed for about three weeks with pneumonia.

The Alpha Hardware Store Ltd. has htis week finished work on a new heating plant for the local grammar school and the board of trustees will meet tonight to look over the work and discuss other school matters.

"Dig" Harris of Grass Valley passed through Nevada City on his way to French Corral after a three days' visit at home. Mr. Harris is working on the Three Black Cat mine at French Corral.

Cal Linnell of French Corral and Caesar Marchetti of Oakland are planning on making a trip to Oakland tomorrow with George Adams, Grass Valley painter and paper hanger. The men expect to return Wednesday.

Mr. Reed from Downieville is in Nevada City on business.

Miss Emma Erway, who was operated upon in Grass Valley, is recovering nicely an dexpects to be home soon.

Alex Anderson, the most popular typewriter man in the state, dropped into the Nugget office today and while here sold us a new Underwood typewriter, which is a great help in getting out the paper on time.

SUPERIOR COURT

The following matters were set for hearing in the superior court Thursday morning before Judge Raglan Tuttle:

Estate of Catherine Dawe, deceased—Notice of hearing of sale of property.

Estate of Edward L. Meeker, deceased—Petition for letters of administration.

Estate of Elizabeth Harvey, deceased—Petition fo rletters of administration.

Estate of Louisa Arnhart, deceased—Order to terminate a life estate.

Estate of Mrs. Priscilla White, deceased—Petition to terminate a life estate.

Estate of Miss Prescilla White, deceased—Petition to terminate a life estate.

Estate of Catherine Drinning deceased—Petition for letters of administration.

Estate of Ameria Brand, deceased—Petition for probate of will.

Estate of Henry Daniels, deceased—Petition to transfer stock.

Estate of John Hill, deceased—Petition for letters of administration.

Alexina M. Grissel vs. George W. Prescott—Motion for a new trial.

Edward P. Davey vs. W. J. Bickel Demurrer.

At the afternoon session reports of Probation Officer A. W. McGagin were submitted on the application for probation after pleas of guilty by Joe Sullivan, Frank Hymes and George Day.

BUCK STEW AT GRASS VALLEY IS BIG AFFAIR

the Jewish version of Paul Revere's famous ride.

Following the entertainment, Eddie Smith's Californians, of Sacramento played for the dance that immediately followed. Smith's orchestra played at the recent State Fair in Sacramento. Everyone seemed to join in the gay spirit of the occasion and the dance was king.

Smiling S. A. Melnicoe of the Sacramento Bee and radio announcer for KFBK, announced and directed the entertainers in splendid fashion.

A lot of credit is due the volunteer committeemen for their share in making the buck stew this year a howling success. Handling, feeding and entertaining a crowd of well over 600 is no small proposition.

At 1:30 o'clock, the crowd, all entertained out for the time being, voted this year's buck stew t he best ever and called it a big night. A night never to be forgotten.

San Francisco—Alcazar theatre reopened.

NEW YORK LIFE INSURANCE COMPANY
W. H. Daniels
Nevada County Agent
Room 1, Masonic Building
Pine St., Nevada City

SKI CLUB TO GIVE DANCE THIS SATURDAY

In order to raise money for an engine and cable to draw toboggans up to the starting point, the Nevada City-Grass Valley Ski Club is giving a benefit dance and entertainment this Saturday night, October 15th, at the Redmen's Hall, in Nevada City.

An hour's entertainment will start at eight o'clock, which will be immediately followed by the catchy popular pieces from a seven-piece orchestra. Then everyone grabs a partner and the dance is on.

Proceeds from the dance will buy the engine and cable that will be installed at the ski course at the old Central House. This installation of modern equipment will make it unnecessary for toboggans to be dragged back up the hill by hand after a ride down. Just hook the toboggan on the cable and presto, it goes up the hill by itself.

Last year many people took advantage of the club's course at the Central House. Many Sundays as many as 100 cars would be parked on the hill. With these added improvements, more people than ever are expected this winter.

Floor managers of the dance and entertainment are Earl Covey, R. C. Pengelly, Ed. Waters, H. W. Westbrook, John J. Nolan, James Henwood, Harold Hutchinson, J. F. O'Connor, R. R. Goyne, A. M. Holmes, Frank Ghidotti, James Penrose and Robert Tharp.

Music and entertainment will be under the direction of Meyers Mobley, R. E. Carr and Mrs. Charles Elliott.

The Nevada City ticket committee is composed of S. Lee Leiter, Ernest Schreiber and W. H. Griffiths.

Sheriff George Carter, president of the club, is taking charge of the advertising and general management of the dance.

Terrance—General Petroleum Co. started construction of $1,500,000 refinery here.

N. C. N. G. R. R. COMPANY TIME TABLE

Effective Tuesday, June 28th, 1932

giving Placerville the ball on the 20-yard line; 1st down, 10 to go.

The next play brought no gain for Placerville and on the 2nd down Nevada City was given another 15-yard penalty for piling. Those two penalties just meant the old ball game. Placerville's ball, 1st down and five yards to go for a touchdown. The first two tries resulted in a yard loss from line plays. On the third down, Halfback Martinovich of the Placerville team ran around end for a touchdown.

The place kick try for extra point was blocked.

Chapman, Nevada City quarterback, almost broke loose for a score in the fourth quarter. He caught a punt on his own 35 yard line and eluding ten of the Placerville players, he ran to the Placerville 25-yard line before being downed by the lone safety man.

Lineup:

Right end	Tamblyn
Right tackle	Casci
Right guard	Brown
Center	Tucker
Left guard	Barry
Left Tackle	Schiffner
Left End	Doyle
Quarterback	Chapman
Right halfback	Pierce
Left Halfback	Tucholini
Fullback	Oates

Substitutes--Barker for Tucholini, Pierce for Oates, Hoffman for Chapman, Joy for Doyle, Flint for Casci, Clark for Schiffner, Hoffman for Tamblyn, Jones for Brown.
